

TwelveStone expands Infusion Suite in Murfreesboro

Additional Capacity Part of Expansion throughout Southeast

TwelveStone Health Partners, a leading provider of comprehensive chronic care medication services, announced today a new infusion center location, increasing their infusion capacity in Murfreesboro in an expanded center separate location from the company's headquarters. With the addition of these rooms, Murfreesboro will now have ten suites. This brings the company footprint to nearly 50 rooms across 7 locations.

The inaugural infusion location was originally integrated into the TwelveStone headquarters location as part of a pilot roll-out. Now that the company has 7 locations, chief executive Shane Reeves determined it was time to expand the initial site to its own dedicated location. The new site is at the same address in suite 4C while Suite 3 remains the company headquarters.

"We are excited our Murfreesboro Infusion Center has grown to the point that it is time to open a fully separate location from our headquarters," says Shane Reeves, chief executive officer of TwelveStone Health Partners. "This new site provides more spa-like space to manage the volume of patients with complex, chronic conditions in the greater Murfreesboro area."

Fueled by the recent investment from Heritage Partners, TwelveStone has the capacity to grow significantly with expansion plans to additional locations in Nashville and Atlanta. These new locations strategically located in growing suburb communities are conveniently located for patients with significant health issues requiring the high level of service available at TwelveStone.

TwelveStone provides holistic pharmacy services designed for patients with complex and chronic conditions. The company's offerings include ambulatory infusion, home infusion, and packaged medication delivery, all of which drive increased access, adherence, and enhance the patient experience. After launching its ambulatory infusion center model in 2019, TwelveStone experienced significant growth and established itself as a differentiated provider of specialty infusion services.
